

2025 Annual Report Snapshot

A connection felt across our state.

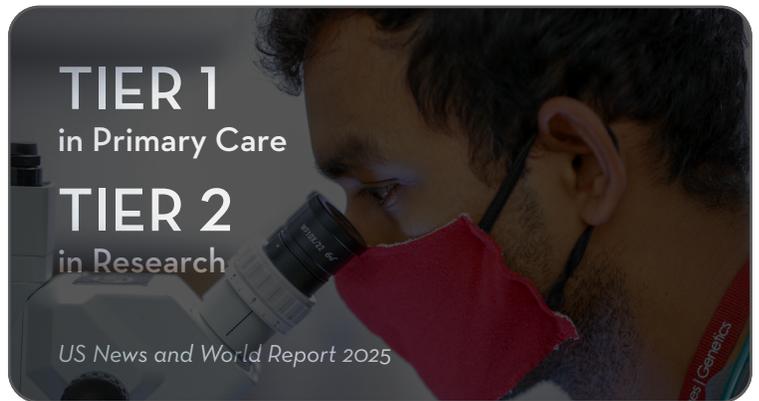

Service to the people of Minnesota is at the heart of the Medical School's mission. We are driven by the conviction that science saves lives, translating our cutting-edge research and clinical innovations into tangible, improved health outcomes for communities statewide. This commitment creates a positive ripple effect, fostering greater health equity and resilience across every region of our state. **Scan the QR to see the Medical School's full Annual Report 2025**
